● Patents Granted

➤ Patent No. 26429

Issued by: Academy of Scientific Research and Technology, Ministry of State for Scientific Research.

Title: Environmentally Friendly Phosphate Fertilizer Suitable for Organic Farming.

Description: Developed through natural biological additives to phosphate rock. Awarded the Excellence Shield at the Arab Conference on Land and Water Management for Sustainable Agricultural Development, held at Mansoura University, Faculty of Agriculture. (Registered as a Bio-Phosphate Fertilizer).

➤ Patent No. 27124

Issued by: Academy of Scientific Research and Technology, Ministry of State for Scientific Research

Title: Method for Producing Nitrogenous and Phosphate Fertilizers

Description: Involves adding boron and biological enrichment of organic materials and phosphate rock using phosphorus solubilizers and non-symbiotic nitrogen fixers. (Registered as a Bio-Nitrogenous Phosphate Fertilizer).

National-Level Research Projects Participated In:

- **Member** of the research team for the project “Post-Harvest Practices,” funded by the Delta Regional Council and affiliated with the National Agricultural Research Project, aimed at reducing post-harvest losses in agricultural crops.
- **Member** of the research team for the project “Reuse of Treated Wastewater in Irrigation,” in collaboration with the Ministry of Agriculture and Land Reclamation and the Academy of Scientific Research, aimed at the optimal use of treated water.
- **Member** of the advisory committee for the “Egyptian-American Team at the American Scientific Agency (RONCO),” supervising the USAID Project at the Ministry of Agriculture and Land Reclamation in Egypt (Project No. 263-024), aimed at agricultural modernization.

- **Member** of the specialised scientific committees on post-harvest practices, focusing on guidance and development in collaboration with the Ministry of Agriculture and Land Reclamation, aimed at improving the productivity of vegetable crops and encouraging exports.
- **Member** of the project for the “Development of the Faculty of Agriculture Library” at Ain Shams University, aimed at restructuring, developing, and coordinating the agricultural library.
- Member of the research team for the project “Reducing Environmental Pollution by Agricultural Chemicals through Chemigation Techniques in New Lands,” funded by the Regional Councils for Agricultural Research and Extension - Agricultural Research Center - Ministry of Agriculture and Land Reclamation in Egypt, aimed at increasing productivity and producing safe food.
- Member of the research team for the project “Impact of Treated Wastewater and Some Ion-Reducing Materials on Certain Plants,” funded by the Community Service and Environmental Development Sector - Ain Shams University, aimed at the optimal use of recycled and treated water.
- Member of the project for “Quality Assurance and Accreditation (QAAP)” at the college, funded by the Ministry of Higher Education, aimed at raising awareness and achieving high training efficiency in agricultural education.
- Deputy researcher to the principal investigator for the project “Application of Traditional and Non-Traditional Post-Harvest Practices and Supply Chain to Reduce Post-Harvest Deterioration in Cantaloupe and Tomato Fruits,” funded by the Science and Technology Development Fund (STDF), aimed at promoting agricultural export

Contributions to Training Programs:

1. Contributed to training youth groups in the Presidential Program for Youth Leadership Development at the National Training Academy (NTA).
2. Delivered lectures at Nasser Military Academy (National Defense College) for candidates seeking fellowships, and participated in the Armed Forces Operations Conference (Crisis Management) at the El-Galaa Club.
3. Delivered a presentation at the military conference titled “Smart Agriculture Compatible with the Environment,” organised by the military.
4. Participated in training numerous technicians, agricultural engineers, agricultural supervisors, and agricultural advisors across various organisations , including the Ministry of Agriculture and Land Reclamation, Agricultural Directorates, the National Research Center, the Desert Development Center at the American University, and the Arab Universities Union (Arab Council for Graduate Studies and Scientific Research, and the Motherhood and Childhood Education Project in rural Egypt) within Egypt and the Arab world.

Scientific Tasks and Conferences Participated In:

- Participated in National Dialogue Committees affiliated with the Presidency, specifically in agriculture and irrigation committees.
- Attended numerous conferences, including the Presidential Youth Conference with the presence of His Excellency the President of the

Republic, and various inaugurations of the “Future Egypt” sustainable development project. M

- Participated in the inauguration of the Agricultural Greenhouse Project at Mohammed Naguib Base with the attendance of His Excellency the President of the Republic, and actively participated in presidential elections and constitutional amendments.
- Attended the Economic Conference (Egypt 2022) Roadmap / Competitive Economy under the patronage of and in the presence of Excellency President Abdel Fattah el-Sisi, and speeches on agricultural axis.
- Attended the International Industry Forum and Exhibition under the auspices of the Federation of Commercial Chambers at the Fifth Settlement Exhibition Grounds with the attendance of His Excellency the President of the Republic.
- Delivered a speech at the Arab Conference on Climate and Sustainable Development (“Green Life”) held at the Triumph Hotel in the Fifth Settlement.
- Participated in over fifty conferences and workshops at both local and international levels, presenting research and representing the college and university at these conferences.
- Undertook numerous scientific tasks to explore modern scientific techniques in agriculture, agricultural mechanization, and seed production in various countries, including the United States (AUS) at Ohio State University, Canada at the Canadian Research Station affiliated with the Canadian Ministry of Agriculture, and China. Additionally:
- Participated in a scientific visit in collaboration with the Ishtropy Foundation to Spain from September 3 to September 9, 2018, to review the latest techniques in the production and breeding of sugar beet seeds, as well as the mechanisation of planting and harvesting sugar beet.
- Engaged in a scientific visit in collaboration with the Maribo-Hilleshog Foundation to Denmark and Sweden from September 21 to September 17, 2018, to examine modern agricultural techniques.
- Conducted a scientific visit in collaboration with the Debrie Foundation in France and the Biosid Foundation in Hungary from October 19 to October 27, 2018, to investigate the latest scientific techniques in seed breeding and production, including a visit invitation to the Sugar Beet Technology Institute (ITB) in Paris, France, to learn about one of the technologies in sugar production.
- Participated in a scientific visit in collaboration with the Siss Vanderhaaf Foundation in Belgium and the KWS Foundation in the Netherlands from December 10 to December 15, 2018, to review modern agricultural techniques in seed breeding and production. Engaged in a scientific visit in collaboration with KWS and Deltisch Foundation in Germany from January 21 to January 26, 2019, to explore modern agricultural techniques, which include missions and exchange visits aimed at disseminating technology and modern agricultural techniques in some Arab countries, including the United Arab Emirates and the Kingdom of Saudi Arabia.
- Attended scientific forums and conferences in London, England, and France in 2022, including the International Sugar Organization in London and the Sugar Beet Technology Institute (ITB) in Paris, France
